

Hatsuyuki

ICE SHAVER

Enjoy 90%+ profit margin from only a small amount of space. Not only is each unit compact (size), but easily installed and very simple to operate. Hatsuyuki's unique blade adjustment control gives you a choice in the ice texture. From coarse and grainy to light as fresh fallen snow. If you're looking for a cool item for hot profits, look at Hatsuyuki.

CUBE ICE SHAVER

HC-8E

AC 115V

- Shaved ice is not crunchy, but fluffy, light and flavorful.
- Operation stops automatically when the lid is opened.
- Start with "SNAP ON"

1 Open the lid and put in ice cubes.

2 Close the lid.

3 Adjust the texture of shaved ice. (Shaving will not start while the lid is open.)

4 Switch on. (Adjust the texture of shaved ice during operation if necessary.)

HC8EDC

DC 12V

- Easy to carry for outdoor use.
- A 40AH (amp/hour) deep cycle (marine) battery allows HC8EDC to shave 400 servings or more of ice by overnight charge.

Accessories

- Drip Tray 1
- Extra Blade 1
- Drain Hose 1
- (HC8EDC) Above + Power Source Cable 1

1 Place an ice block on the shaving table.

2 Turn the handle so the prongs hold ice firmly.

3 Close the ice cabinet cover and adjust texture of shaved ice. (Shaving will not start while the cover is open.)

4 Switch on. (Adjust the texture of shaved ice during operation if necessary.)

BLOCK ICE SHAVER HF-500E

- Shaved ice is not crunchy, but fluffy, light and flavorful.
- Operation stops automatically when the ice cabinet cover is opened.

Accessories

- Drip Tray 1
- Extra Blade 1
- Drain Hose 1
- Gear Oil 1
